

THE HILTON HOTEL

Project:	The Hilton Hotel
Location:	Park Lane, London W1
Architect:	Sidney Kaye & Firmin
Interior designer:	Graham Solarno
Main contractor:	Trollope & Colls
Interior subcontractor:	Wiltshiers

Fibrous plaster

The refurbishment and reconstruction of the Harvest Restaurant in the Park Lane Hilton Hotel, complete with the approach staircase, was a complex contract demanding the creation of the nine arches which form the restaurant.

Each arch is curved in both the vertical as well as the horizontal plane and each is of differing proportions.

The ceiling is an immensely striking area and is formed as an octagon by the use of double-sided enriched lighting troughs.

A striking use of the plasterer's art...

PRODUCT RANGE

Openwood manufactures moulded products in glass-fibre reinforced gypsum, traditional fibrous plaster, and glass-reinforced plastics; further details are available on request.
