

## THE HEART OF MAYFAIR

<b>Project:</b>	4-10 Hill Street
<b>Location:</b>	London W1
<b>Designer:</b>	Debenham, Tewson & Chinnocks
<b>Main contractor:</b>	John Lelliot

### Fibrous plaster

These beautiful rooms are examples of the work carried out in this outstanding development, converting a series of houses into a superb office facility.

There is a variety of highly-ornate ceilings, cornices, columns and panel mouldings, all of which epitomize the art of fibrous plasterwork.

There are also, of course, large areas of plain ceiling, which provide an appropriate contrast.

### PRODUCT RANGE

Openwood manufactures moulded products in glass-fibre reinforced gypsum, traditional fibrous plaster, and glass-reinforced plastics; further details are available on request.
