

BERKELEY SQUARE

Project:	Office development
Location:	Berkeley Square, London W1
Designer:	Debenham, Tewson & Chinnocks
Main contractor:	Myton

Fibrous plaster

An outstanding office development in this famous London Square was the vehicle for the design work of the architects Debenham, Tewson & Chinnocks.

The large areas of plain ceiling were complemented by very ornate ceilings coupled with cornices, columns and panel mouldings. The effect was one of change without straying from the traditional elegance and style.

Surely the fibrous plasterer's art at its best...

PRODUCT RANGE

Openwood manufactures moulded products in glass-fibre reinforced gypsum, traditional fibrous plaster, and glass-reinforced plastics; further details are available on request.

Openwood Licensed manufacturers of Acell products
