| Project: | The Ashley Centre |
| Location: | High Street, Epsom, Surrey |
| Architect: | Renton, Howard, Wood & Levine, London |
| Main contractor: | Bredero, Epsom |

Glass-reinforced gypsum

This exciting development for the town of Epsom brought a whole new dimension to shopping in the High Street.

All the work was executed in GRG and consisted of the entire fitting out of this major shopping mall development.

The contract included all the beam cases, the bulkheads which form the lighting troughs and the elegantly-proportioned planters which abound throughout the development.

PRODUCT RANGE

Openwood manufactures moulded products in glass-fibre reinforced gypsum, traditional fibrous plaster, and glass-reinforced plastics; further details are available on request.
